

# BIOTECHNOLOGY

*A longstanding premier market in San Diego, the biotechnology field requires a high level of technological knowledge, as well as a strong familiarity with its equipment and processes. Through immersion in large biotech projects over many years, Neal Electric has gained a deep understanding of the intricacies and diligence required to build and service these facilities.*

## CORE CAPABILITIES

### A Partner in Science

- Neal Electric maintains very demanding schedules to meet the challenges of client timelines and clinical end points
- Dedicated electricians are sensitive to ongoing projects at the work site, taking care to upgrade or remodel without disturbing chemical/biological research and scientists continuing their studies
- All teams understand the scheduling, certifications, and requirements of working in hazardous-materials areas

### High-level Performance

- Neal Electric has expertise in sophisticated and increasingly automated systems
- Our personnel are continuously trained to remain on the cutting edge of technology

## SERVING THE VITAL BIOTECH MARKET: **OUR CLIENTS**

- Abbott Vascular TEC
- Abbott TEC Site Utilities
- Alexandria Core & Central Plant
- Amylin 9625 Phase I A
- Amylin Ammenities
- Amylin 9363 Floor Two
- Cancervax
- La Jolla Inst. Allergy & Immunization
- Sidney Kimmel Cancer Center TI
- EGEA Biosciences
- Senomyx TI
- Tekeda Lab Expansion TI
- Pfizer CB<sub>1</sub> Densification Job
- Pfizer CB<sub>1</sub> – Occupational Health
- Pfizer Bldg CB-10
- Pfizer Lot 23
- Neurocrine Campus
- Neurocrine T.I. Remodel
- Genentech Process Development – 1st & 3rd Floor
- Genentech – Radio Repeater
- Genzyme – Manufacturing Suite
- Gemini Science Inc
- Johnson & Johnson – EGEA T.I.
- Johnson & Johnson Cogeneration
- J&J PRD SW Bio Lab Expansion
